UNIVERSITY

LEARNING CENTRE OF EXCELLENCE

Code the Future.

Powered by Google

Industry-integrated technology education at SGVU, powered by Google's cloud infrastructure, AI frameworks, and cybersecurity standards, trains graduates to meet global digital benchmarks from the start. The Learning Centre of Excellence with Google offers a unique academic ecosystem that incorporates Google's cloud platform and best practices, serving as a launchpad for future technologists to build the digital infrastructure.

Career Pathways

System Analysts	IT Consultants
Project Managers	Software Developers
Cloud Architects	Data Scientists
Cybersecurity Analysts	Database Administrators
Full Stack Developers	AI/ML Engineers

Undergraduate BCA – Specialisations

Google Cloud Program (GCP)

Data Science (with ICA)

Cyber Security

Full Stack Development

AI & Machine Learning

Postgraduate Pathways

Integrated MCA

Seamless undergraduate-to-postgraduate pathway in computer applications

Masters in Computer Application (MCA)

Advanced computing with industry-driven specialisation

Why Choose SGVU's Centre of Excellence?

1. Google Cloud Integration

Train on the same cloud platform used by global enterprises – earning Google-recognised proficiency that recruiters value instantly.

2. High-Speed Lab Infrastructure

Advanced computer laboratories built for real-time application development, simulation testing, and collaborative coding environments.

3. Compulsory Industry Internships

Every student completes structured industry placements before graduation – building a verified professional portfolio, not just a transcript.

4. Active Faculty Research

Faculty lead research in IoT, cryptography, big data analytics, software engineering, and e-governance – students participate in live projects.

5. Full-Stack Employability

From front-end design to back-end architecture, from cloud deployment to cybersecurity audits – graduates command the entire digital stack.

6. NAAC A+ Accredited

India's highest institutional quality grade ensures every degree carries nationwide recognition and employer trust.
